DETAILED ACTION

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 12-18 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

Claims 1-11 and 26-35 are directed to a computer-implemented method for digitally signing data. The examiner asserts that the collection of information does not fall within the statutory classes listed in 35 USC 101. Claims 12-18 are rejected as being directed to a functional descriptive material (i.e., computer program). The specification indicates that the computer readable code recited in the claims is C++ code and therefore the claims are directed to a computer program (page 6).

Allowable Subject Matter

Claim1-11 and 19-35 allowed.
